

YOUR FREE GIFT FROM CAROLYN THE MASTER CELEBRANT

SUSTAINABLE CEREMONY TIPS

MEANINGFUL MOMENTS, MINIMAL IMPACT

01 YOUR APPROACH

Sustainability, looking after our world, is about progress, not perfection. This is an inclusive space to align your ceremony with your eco values—whether that's a small tweak or a total focus, it's all about what feels kind and achievable for your specific occasion

02 GUESTS & TRAVEL

Ask your venue how it is eco friendly. Encourage lift-sharing or local transport. For those wishing to give, suggest charity donations or experience-based gifts to reduce waste and celebrate a lasting legacy.

03 YOUR BUDGET

Save money and the planet: choose digital invites, pre-loved décor, and local flowers. Repurposing meaningful items from home adds sentimental depth without the extra cost or environmental impact

04 YOUR STORY

Focus on your values and your story. Use biodegradable confetti, leaves, heirloom items, or a unity tree-planting to mark your milestone. Involving friends and family to hand-make or repurpose decorations adds deep personal connection while staying kind to the earth.

05 GLOBAL IMPACT

Your ceremony supports the UN Sustainable Development Goals:

- Goal 11: Sustainable Communities – Supporting local venues and artisans.
- Goal 12: Responsible Consumption – Reducing waste and choosing pre-loved.
- Goal 13: Climate Action – Lowering travel emissions and protecting our planet.

YOUR CEREMONY
